

MIRIMICHI GREEN®

Activate Nature.

NUTRI-TREE & SHRUB™
with NutriRelease® Technology

3-2-3

APPLY AS A FOLIAR FERTILIZER AND DRENCH

Nutri-Tree & Shrub is a powerful liquid fertilizer delivering nutrients to ornamental trees, shrubs, and flowers by absorption through the roots and leaves. **Nutri-Tree & Shrub** can be used alongside or mixed with other fertilizers, insecticides, fungicides, and herbicides. For best results, apply early in the morning or in the evening.

Nutri-Tree & Shrub is a liquid fertilizer and biostimulant specifically formulated to help trees and shrubs flourish. The liquid solution contains an ideal balance of NPK, elicitors, enzymes and **NutriRelease™** Technology that plants need resulting in a stronger root system, abundant produce, and richer foliage. Each application is spoon feeding the plants and the benefits are immediately absorbed through roots and leaf structure with minimal waste. **Nutri-Tree & Shrub** resists photochemical breakdown from the sun's rays and maintains a neutral charge, preventing unwanted reactions with other chemicals.

Nutri-Tree & Shrub is ideal for nurseries, flower beds, gardens, trees, shrubs, new plantings, hemp & cannabis, or hydroponics.

KEY PRODUCT BENEFITS

- ▶ A proprietary formulated treatment for trees and ornamentals
- ▶ Promotes rapid production of beneficial protozoa, fungi, and hyphae
- ▶ Contains microbial fermentation extracts that conditions the soil
- ▶ Nutrients are fully complexed and chelated to <400 Dalton size for immediate uptake
- ▶ Can be drenched, sprayed, or deep root injected
- ▶ Safe to apply with herbicides, insecticides, fungicides, and other fertilizers

APPLICATION	RATE	FREQUENCY
Trees, Shrubs, & Flowers Hemp & Cannabis	Drench - Dilute 1 gallon with 50-100 gallons of water; Drench 1 gallon per 1-inch diameter trunk with diluted solution. Foliar - Dilute 1 gallon with 100 gallon of water to cover leaves.	Apply every 1-3 months Apply as needed or consult your Mirimichi Green representative
Container Plants	Dilute 2.5-5 ounces per gallon of water.	Apply every 2-3 weeks
Deep Root Injection	Inject 1 gallon per 1-inch diameter of trunk with dilute solution. 1:50-1:100 ratio (drench rate)	Apply 1-3 months
Hydroponics	Dilute 5ml per gal of water or 17 ounces per 100 gallons of water.	Apply at every feed
